

PORTFOLIO PRESENTATION

Bridging Operational Strategy with Technical Innovation

Operations, Customer Success & Technical Portfolio

Chethan Kumar

A Hybrid Leader optimizing human
workflows and machine learning pipelines.

Chethan Kumar

Dubai, UAE (Employment Visa)

*"My expertise extends beyond traditional management into AI prompting, **Python** script execution, and **Unix** automation to optimize workflows."*

Executive Profile: 14+ Years of Operational Excellence

A strategic operations and customer success leader based in **Dubai, UAE**. I specialize in bridging the gap between business goals and technical execution, with a recent focus on data operations supporting **machine learning pipelines**.

CSAT Score

The Hybrid Advantage: Where Strategy Meets Code

Modern operations require more than just people management. They require the technical literacy to diagnose pipeline inefficiencies and the empathy to drive customer loyalty. Roboto Regular

Technical Fluency & AI Operations

Automating workflows and supporting ML pipelines.

AI Prompting Expert

Crafting effective prompts to optimize outputs for business applications and integrating AI tools into operational workflows.

Python Script Execution

Proficient in scripting for data processing, automation, and integration with ML pipelines.

Unix Command Execution

Skilled in Linux command line operations for system administration, file management, and process monitoring.

Deployment Automation

Experienced in CI/CD pipeline concepts, environment management, and release automation.

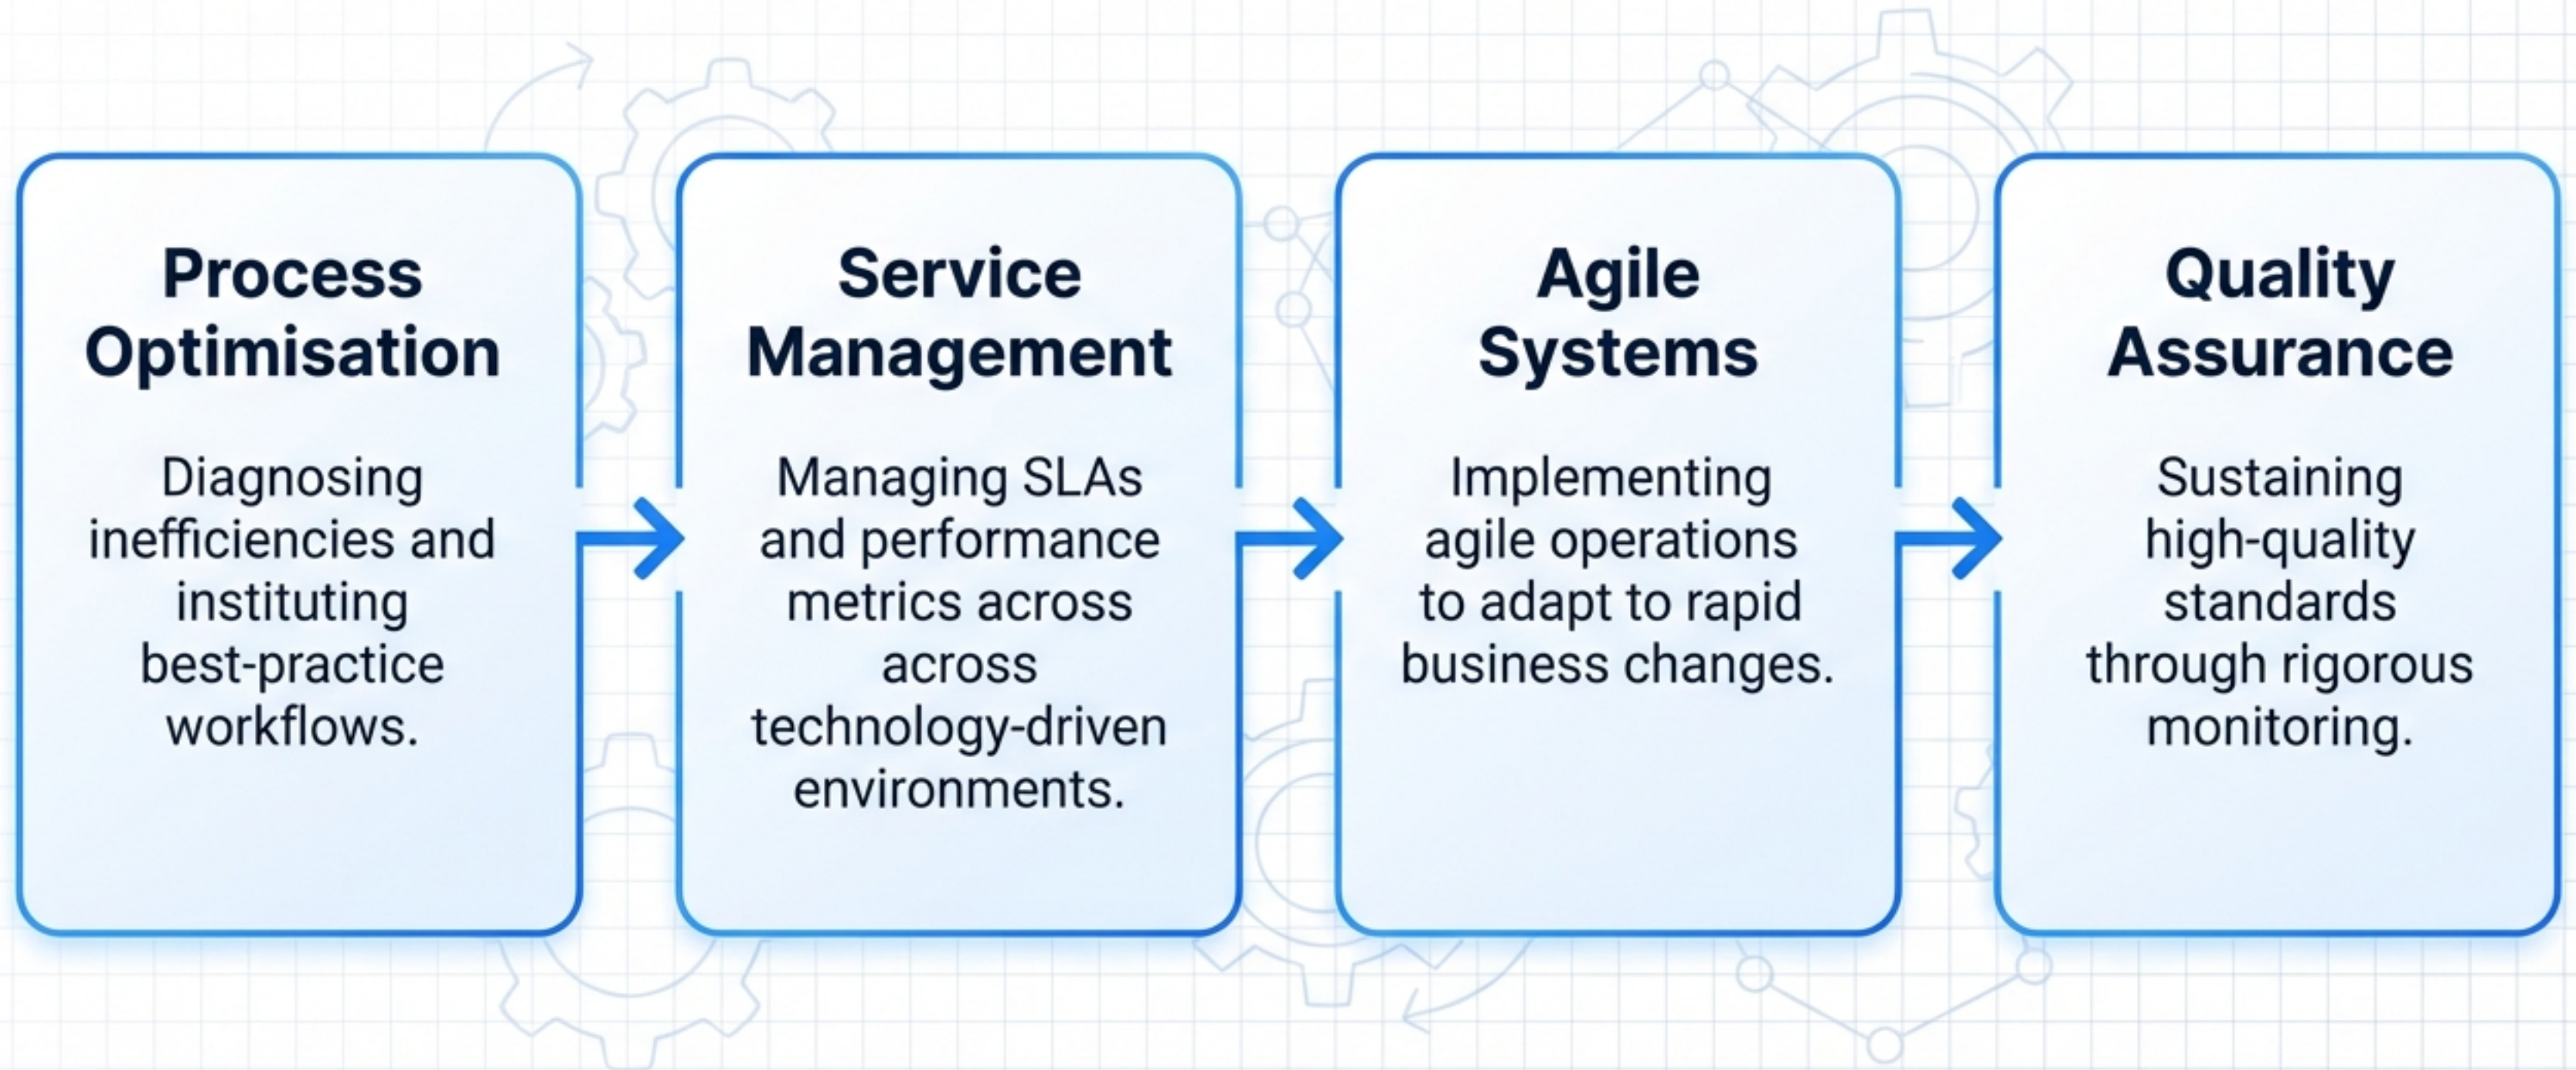

Data Operations for ML

Managing data quality, preprocessing, and governance specifically for AI/ML models.

Strategic Operations & Governance

Building scalable frameworks for service delivery.

Customer Success & Team Leadership

Driving loyalty through empathy and data-driven insights.

Journey Optimisation

Enhancing the client lifecycle from onboarding to retention.

Contact Centre Management

Leading cross-functional teams to consistent targets.

Cross-Functional Collaboration

Bridging the gap between technical teams and end-users.

Talent Development

Strategic hiring, recruitment, and onboarding of high-performance teams.

The AI Era: Architecting Enterprise Data Data Strategies

Operations Manager | DTEK.ai, Dubai (Feb 2024 – Present)

The Challenge & Action

- Architected and executed strategies to improve accessibility and security for ML pipelines.
- Diagnosed inefficiencies across data pipelines and instituted best-practice workflows.

The Technical Impact

- Implemented Unix-based automation for data processing and deployment.
- Leveraged AI prompting techniques to optimize model validation workflows.

Technical Customer Success Leadership

Customer Success Team Lead | DTEK.ai, Dubai (Jul 2022 – Feb 2024)

Leadership Impact

- Steered a team of specialists to consistently surpass satisfaction targets.
- Integrated technical solutions directly into customer success workflows.

Data-Driven Innovation

- Utilized JetBrains Mono Python scripts for customer data analysis and feedback processing.
- Applied JetBrains Mono AI tools for customer sentiment analysis and predictive support.

The Foundation: A Decade of Scalable Support

Team Lead – Technical Support & Representative | GlowTouch Technologies (2009 – 2021)

Operational Consistency

- Directed end-to-end technical support delivery, sustaining quality scores above 90%.
- Resolved complex technical issues related to web hosting and server configurations.

Technical Execution

- Implemented Unix-based monitoring and troubleshooting procedures.
- Developed automation scripts for common support scenarios.
- Managed deployment processes for client hosting environments.
