

CHETHAN KUMAR

Operations Manager | Customer Support Leader

Dubai, UAE (Employment Visa) | +971 58 916 9518 | chethan.ktr@gmail.com | [LinkedIn](#) | [Portfolio](#)

Operations and Customer Success leader with 14+ years driving service delivery, SLA governance, and team performance across GCC and India markets. Experienced in process optimisation, data governance, and workflow automation, with a track record of building reporting systems, leading cross-functional and freelance teams, and applying AI tools to improve operational efficiency. Comfortable operating across sectors — from technology and ML operations to BPO, technical support, and shared services — with a consistent record of meeting SLA, quality, and CSAT targets.

PROFESSIONAL EXPERIENCE

Operations Manager — DTEK.ai, Dubai, UAE Feb 2024 – Aug 2026

DTEK.ai (formerly Dukkantek) is a Dubai-based, VC-backed retail-tech startup (\$15M+ raised) building AI/computer-vision checkout and operations solutions for retailers across the GCC.

- Directed enterprise data-collection strategy across Saudi Arabia, Qatar, and New Zealand, coordinating a distributed team of 10-20 freelance data agents to deliver ML-ready datasets on schedule.
- Built and managed agile freelance teams of up to 20 members for peak-demand projects, sustaining **100% SLA compliance** throughout high-volume cycles.
- Ran end-to-end software and hardware QA testing, acting as the feedback loop between Operations and Technical/ML teams to surface defects before deployment.
- Automated recurring reporting and operational workflows by integrating ChatGPT, DeepSeek, and Gemini, reducing manual processing time across the team.
- Led on-site client deployments — including pre-deployment site surveys, hardware setup, and live troubleshooting — to ensure disruption-free go-lives.
- Managed procurement and inventory for specialised R&D hardware, maintaining uninterrupted supply for innovation projects.

Customer Success Team Lead — DTEK.ai, Dubai, UAE

Jul 2022 – Feb 2024

- Led a team of 10 Customer Success Specialists, expanding regional support coverage across all GCC markets plus Turkey.
- Built daily KPI tracking systems giving real-time visibility into team performance, keeping SLA attainment on target throughout.
- Redesigned the client onboarding process, cutting time-to-value by **several days** and speeding up client proficiency with the platform.
- Acted as the voice-of-customer liaison with the Product team, translating client feedback into prioritised roadmap items.

Team Lead – Technical Support — GlowTouch Technologies, India

Jan 2014 – Dec 2021

GlowTouch Technologies (now UnifyCX) is a Louisville, KY-headquartered global BPO provider delivering contact center, back-office, and technology outsourcing services, with a major delivery center in Mangalore, India.

- Directed 24x7 technical support operations, improving AHT and quality scores by **10-20%** through WFM-driven scheduling and shrinkage management.
- Sustained a CSAT of **4.65/5** and 90%+ quality ratings over 7 years across client engagements.
- Governed SLA framework, aligning response, resolution, and quality metrics with client contract terms.
- Coached and mentored support analysts on performance and career growth while enforcing data privacy and information security standards.

Technical Support Representative — GlowTouch Technologies, India

2009 – 2014

- Resolved complex web hosting, server, and DNS issues, maintaining client satisfaction across escalated technical cases.
- Monitored hosting platforms in real time to anticipate outages, prevent downtime, and optimise system performance.

AWARDS & RECOGNITION

- **Accountability Award, 2013** — Endurance International Group (now NewFold Digital): Recognised by this US client for outstanding ownership and accountability in service delivery.
